Subject: Dr. Ben's

Capt. Tom International commercial pilots Endorsement for Dr. Bens,

I have been using Dr. Ben's for over six months. As an international commercial pilot, I find it to be an invaluable tool for protecting me from bed bugs and other insects, often encountered in hotels. It gives me piece of mind to know myself and my belongings are safeguarded against any bed bugs that may try to bite me or hitch a ride back to my house via my suit case. In addition, I am a pet owner and have used Paws and Claws with much satisfaction on my dog by spraying him with the product. My family often goes on hikes through the mountains with ticks, chiggers, mites, and other nasty insects. We guard our dog and ourselves against these tiny attackers using Paws and Claws, knowing it's safe for use with pets and children. I have enjoyed using Paws and Claws and have and will continue to recommend it to my friends and family. Thanks
